Abstract

The successful operation of companies in most industries is becoming increasingly dependent on their ability to adopt and utilize ICT and the acceptance of such technologies by large organizations, the same level of adoption is not evident among SMEs. ICT adoption has been considered to be a complex problem by SMEs. Although Government of India is taking initiative to promote ICT adoption in SMEs. Still lots of issues need to address for successful adoption of ICT in SMEs. This study tries to identify the internal and external barriers existing in adoption of ICT by SMEs with the help of review of literature and secondary data study.

Keywords:- *ICT, SMEs, barriers*
